Pimpri Chinchwad Education Trust

The Trust is a composed group of highly active, devoted persons of high social standing. They have joined together to establish, develop and run a large technical and allied educational institutes comprising various useful educational courses. Our Inspiration is Late Shri Shankarrao Bajirao Patil, a well known social leader & Ex. Minister of Maharashtra State and an Ex- Parliamentarian, who came from a prosperous agricultural family. He had the vision of establishing a Technical Institute for the needs of people in Pimpri Chinchwad Industrial Area. The trust then introduced Diploma Courses in Engineering by starting Pimpri Chinchwad Polytechnic in the year 1990.

About the Institute

Pimpri Chinchwad Polytechnic was established in the year 1990. It offers courses in various disciplines of engineering and technology.

Features of the Institute

- ❖ Student focused education
- ❖ Excellent infrastructure with hostel, canteen, mess facility
- ❖ Qualified and dedicated staff
- ❖ Modern Teaching -Learning Methodology &Tools

Vision

To achieve, academic excellence in science, engineering and technology through dedication to duty , innovation in teaching and faith in human values.

To enable our students to develop into outstanding professionals with high ethical standards to face the challenges of the next millennium.

To fulfill the expectation of our society by equipping our students to stride forth as resourceful citizens ,aware of their immense responsibility to make the world a better place to live in.

Mission

Our Department of Civil Engineering aims to provide educational , professional , ethical and intellectual knowledge that enables students , faculty and staff to contribute for the betterment of the society through teaching , research & development and consultancy services.

Civil Department

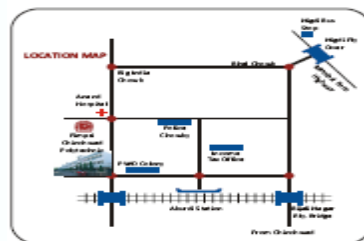

Civil Engineering Department was established in the year 1990. The department is having well equipped labs and well qualified, dedicated and trained team of teaching and support staff. We as a team are committed to impart long lasting technical and value education to the students.

The department believes in consistent Institute Industry Interaction & thereby consistently organizes Seminars ,Guest Lectures, Training Programmes ,Workshops of eminent personalities from the Construction field .

About the Programme

The next decade environmental issues like global warming , climate changes , habitat destruction , nitrogen deposition will become more predominant and acquire more attention in the public and private domain. The environmental science addresses the growing need for environmental experts and us. This programme is designed to upgrade & provide latest knowledge & enhance the technical skills in “Enhancement in Environment and Recent Trends” so that they can deliver theory & practical knowledge to students to the level best. The program focuses on Practical oriented contents & hands on experience.
